

## MARICOPA COMMUNITY COLLEGES TRANSFER PATHWAY

### ENVIRONMENTAL & WATER RESOURCE ECONOMICS B.S.

Students in Environmental and Water Resource Economics receive training in environmental and natural resource economics and quantitative methods. The curriculum integrates science, politics, law, information technology, project management, marketing, and communications. The program prepares students to enter careers in the management of the world's natural and human resources.

*USA Today-Money* recently rated Agricultural Economics as the second best major for high employability upon graduation. Environmental and Water Resource Economics is part of this field. Graduates from the program will enter a career path with a very low 0.74% unemployment rate.

### TRANSFER EQUIVALENCIES

On the following page you will find course equivalencies for Environmental and Water Resource Economics. The information presented is a recommended outline of courses for students to take at Maricopa Community Colleges that will transfer as equivalent courses to the University of Arizona. Please consult with a transfer admissions counselor and academic advisor to review specific courses as transfer pathways are subject to change.

The course equivalencies on the following page are from the AZTransfer course equivalency guide. The student's successful completion of each course will be reviewed in the pre-admission evaluation. Please note that all course work will be officially evaluated once your official transcript is processed by the University of Arizona. Students must receive a grade of a C or higher for a course to transfer.

Internships with organizations such as Water Resources Research Center, Arizona Project WET, and Water Sustainability Program help prepare students for positions managing natural resources.
