

MARICOPA COMMUNITY COLLEGES TRANSFER PATHWAY

SUSTAINABLE PLANT SYSTEMS B.S.

The Sustainable Plant Systems program is an interdisciplinary partnership between the School of Plant Sciences and the Department of Environmental Science. A major in Sustainable Plant Systems prepares students to be leaders in 21st century agriculture and experts in agricultural technology, plant improvement and innovative, responsible production systems for healthy urban and agricultural ecosystems.

TRANSFER EQUIVALENCIES

On the following page you will find course equivalencies for the Sustainable Plant Systems. The information presented is a recommended outline of courses for students to take at Maricopa Community Colleges that will transfer as equivalent courses to the University of Arizona. Please consult with a transfer admissions counselor and academic advisor to review specific courses as transfer pathways are subject to change.

The course equivalencies on the following page are from the AZTransfer course equivalency guide. The student's successful completion of each course will be reviewed in the pre-admission evaluation. Please note that all course work will be officially evaluated once your official transcript is processed by the University of Arizona. Students must receive a grade of a C or higher for a course to transfer.

Students in Sustainable Plant Systems learn to create solutions to feed, clothe, and fuel growing populations while protecting our planet for generations to come.
